Nikhil Seth  
UN ASSISTANT SECRETARY-GENERAL  
EXECUTIVE DIRECTOR, UNITAR

# Environmental SDG Indicators

## e-learning course

**Name:** Babul Deb

**Date:** November 22, 2023

### **About the course:**

This e-learning course is a self-paced course with individual 10 modules developed by the United Nations Environment Programme (UNEP), the United Nations Statistical Institute for Asia and the Pacific (UNSIAP) and the United Nations Institute for Training and Research (UNITAR). This course provides an overview of the importance of monitoring the environmental dimension of development, the linkage with existing statistical frameworks (FDES and SEEA) and how to use environment statistics in decision making. The modules will also provide a brief overview on all 25 SDG indicators under UNEP custodianship. In particular, this e-learning course aims to build the capacity of countries – representatives of National Statistical Office (NSOs), Ministries of Environment and other stakeholders - to compile and use data on the environment-related SDGs for evidence-based decision-making and to promote cross-cutting data analysis to better understand the environmental dimension of development.

### **Learning objectives:**

Following the completion of the course, participants will be able to:

1. Describe key concepts relevant for environmental monitoring and SDG indicators;
2. Explain how respective environmental indicators are computed;
3. Discuss key challenges the participants' countries may be facing in compiling these indicators and actions that can be taken to address them.
